Prices do not include VAT, except for SPORTident Orienteering App Subscriptions ⁽⁷⁾. Unless otherwise agreed, prices are valid for a hiring period of a maximum of nineteen days for a two-day sport event at the weekend. Pricing for longer hiring periods are available upon request. Shipping costs are not included. Prices are subject to change without prior notice.

⁽¹⁾ Includes elastic bands (14cm or 25cm in length) for the SI-Cards. The customer should indicate the desired band length. The elastic bands are delivered separately from the cards, the customer needs to attach each band to each card. For hygienic reasons, bands are cleaned after each use. Therefore, in addition to the hiring prices for the SI-Cards, article 93301 applies: clean elastic bands. The customer needs to remove the bands from the cards after use. Otherwise the removal of the bands will be charged, see article 93300. All SI-Cards are personalised to SPORTident. The personalisation of the cards may not be changed. Otherwise, a service fee will be charged.

⁽²⁾ The online services, articles 95012 up to 95014, are included in the hiring prices for SI-Cards.

⁽³⁾ Requires article 95012 for data transmission.

⁽⁴⁾ Includes data transmission, management interface and API usage for up to 100 software clients, charged per athlete per day (1 athlete-day = unique SPORTident card id per day). Pricing is independent of the number of modems used. Usage and costs can be monitored in the management interface.

⁽⁵⁾ Online results are listed at <https://timing.sportident.com/> and include result lists by course, category, detailed results, search, comparison of results, athlete certificates and related functionality. Online results include final results (published after the race) as well as preliminary live results (published and updated throughout the race). Customisation of the results presentation is available upon request. For presenting results online, the following software programs and formats are supported: SiTiming (JSON for MTB Enduro, IOF-XML for orienteering), SportSoftware OE2003 (CSV), SportSoftware OE2010 and OS2010 (IOF-XML 3.0). Other formats can be supported upon request.

⁽⁶⁾ Online entries are available at <https://timing.sportident.com/>. Please contact us for details and for customisations at timing@sportident.com.

⁽⁷⁾ Prices are end customer prices for customers worldwide and include applicable taxes.
